Dear AASW Members

AccessEAP is a Profit for Purpose national Employee Assistance Program (EAP) provider which offers counselling services to employees throughout Australia and we are looking for counselling professionals who can offer F2F and CI/Onsite attendance services in Tasmania, particularly in the Hobart, Launceston and Burnie areas.

EAP, as you may know, is a work-based intervention program designed to assist employees in resolving issues that affect their performance. The core service of EAP is independent, impartial and confidential counselling. EAP is a short-term and solution-focussed service offered to individual employees and in some cases immediate family members. As a provider we give employees 24/7 access to qualified counsellors. EAP also focuses on pro-active and preventive measures to help organisations better understand and prepare for mental health issues arising from work/life situations. The aim of EAP is to enhance the level of the employee's well-being and to promote a positive workplace culture.

As you can imagine, the need for this service is growing and our aim is to have enough professionals in all areas to service our client's needs. EAP is a short term solution focussed therapy and does not require letters to doctors or reports but professional distance from the organisation to promote independence and impartial counselling. EAP does not advocate or provide long term therapy.

If you are interested, please reply directly to AccessEAP on associates@accesseap.com.au and include the following documents:

- Professional Resume
- Certificate of registration with AASW
- Certificate of Currency for Professional Indemnity Insurance.
- Must be GST registered with the ATO.
- National Police Check

Once we have all of this information, we can then contact you further.

If you would like to know more before making a decision, please don't hesitate to contact us.

Also, please pass this email onto anyone in your professional network who might be interested in working with us.
