

Position: Clinical Lead

Location: Sydney

Reports to: Chief Executive Officer

Objective

The objective of this role is to strengthen and innovate:

- Participant outcomes through improved links between the program, families, local communities and services;
- program design by developing the evidence base and identifying opportunities for innovation; and
- design the program linking assertive outreach, care coordination and Youth Insearch's peer support program.

Role

- Develop a models of care that integrates Youth Insearch's peer support programs with active care coordination and assertive outreach, delivered by Social Workers and Youth Support Workers. Including offering staged interventions ranging from telehealth for individuals and families/social communities, Single Session Family Intervention, or Open Dialogue
- Through this work building links with families and communities, and observation and research, identify areas for innovation building on the programs basic structure, and build support for and implement these innovations
- Deliver youth mental health first aid training for leaders and support adults, including basic psychosocial safety planning, and masterclasses for leaders and support adults focussing on trauma informed care
- Help build referral relationships at senior levels with government agencies and primary service providers, with the purpose of embedding Youth Insearch's peers support program in the youth mental health system.
- Maintain best practice program theory, logic and evaluation framework, and current evidence base
- Maintain and update the clinical governance framework to manage risk

- Provide professional supervision to Social Workers and other Program Staff.
- Provide clinical guidance to program staff and volunteers
- Work closely with the Clinical Governance Committee in performing this role
- Ensure compliance with all directions from Australian Health Practitioner Regulation Agency (AHPRA) and other governing bodies and organisations as relevant to the TC's professional discipline (e.g. AASW, APS, Occupational Therapy Australia, etc.).
- Maintain unrestricted current registration as relevant to the TC's discipline with AHPRA/AASW/APS, and comply with directions in relation to ongoing professional development.
